Notice on IEA-RETD

RETD stands for “Renewable Energy Technology Deployment”. RETD is a policy-focused, technology cross-cutting platform that brings together the experience and best practices of some of the world’s leading countries in renewable energy with the expertise of renowned consulting firms and academia.

The mission of RETD is to accelerate the large-scale deployment of renewable energies. It is currently comprised of nine countries: Canada, Denmark, France, Germany, Ireland, Japan, the Netherlands, Norway, and the United Kingdom. Hans Jørgen Koch, Deputy State Secretary, Ministry of Climate and Energy, Danish Energy Agency, serves as Chair of the RETD.

The RETD Implementing Agreement is one of a number of Implementing Agreements on renewable energy under the framework of the International Energy Agency (IEA). The creation of the RETD Implementing Agreement was announced at the International Renewable Energy Conference in Bonn, 2004.

The IEA Implementing Agreement functions within a framework created by the IEA. Views, findings and publications of the RETD do not necessarily represent the views or policies of the IEA Secretariat or all of its individual member countries. For further info please visit: www.iea-retd.org
