

Policy Instruments to Support RE Industrial Value Chain Development (RE-ValuePolicies)

IEA-RETD Workshop on Policy Instruments to Support RE Industrial Value Chain Development (RE-ValuePolicies)

May 2, Bonn (Session 3)

Ulrike Lehr

RET Case studies

Target

- Case studies from OECD and non-OECD countries, lessons learnt
- success or failure cases as examples for the above analysis.
- First ideas are:
 - Germany, export initiative
 - Feed-in tariffs (tendering) and local content requirements: the conflict with WTO and GATT (Canada (as an RETD member with a pending case of Ontario); China, South Africa, Portugal
- Other?

Interactive

- Exploring character
- Not too much focus on policy solutions at this stage
- Brainstorming in nature:
 - Is the Inception Report targeting the right issues?
 - What kind of questions do arise after reading the report?
 - What is not clear enough?
 - Are topics overlooked?
 - Are things not correctly reflected?
 - What do you find the most important messages?
 - What are the most pressing issues?
 - Were you surprised by certain parts?
 - What are important questions to answer in the third stage of the project?
 - Which case studies to select?
 - Etc.

Questions to participants:

- What are the most important cases to study?
- From RET?
- From other sectors?

THANK YOU!
